

## Maco Stable Door Lock

A purpose made stable door lock to complement the existing **Maco PROTECT** range.

This innovative door locking solution designed with you in mind. A secure and flexible method which allows you to meet the needs of a traditional stable door whilst retaining the security and weatherseal of a single door.

### Features:

- Top lock has full lever/lever operated gearbox with latch and deadbolt, this works independently allowing the top sash to open whilst the bottom sash remains locked in place.
- The bottom lock has a cylinder operated gearbox with deadbolt, when unlocked the shootbolt is thrown into the top sash allowing both sashes to be opened as a single door.
- When both sashes are locked together the security and weatherseal of a single door are retained.

Available in two locking combinations and backsets.

35mm Backset with 2 Hook and 2 iS cam  
 45mm Backset with 2 Hook and 2 i.S cam  
 35mm Backset with 2 Hooks  
 45mm Backset with 2 Hooks

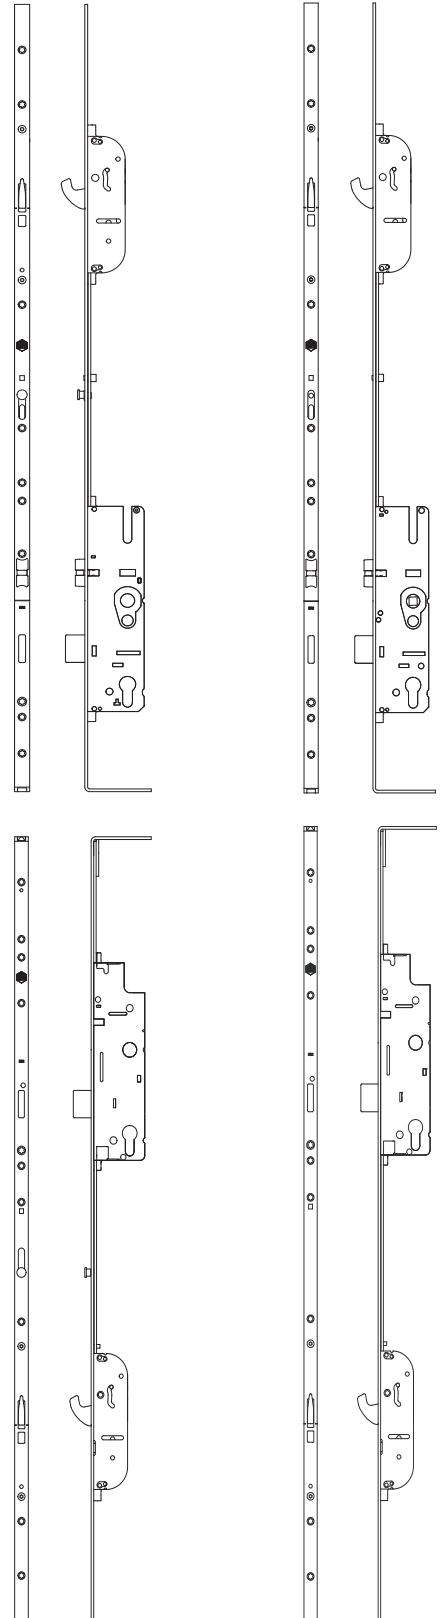

- Part of the Maco PROTECT Multi Point locking range

TECHNOLOGY IN MOTION

Top and bottom sashes lock together to form one door
